

## SOTERIA BED BARRIER: AAMI/PB70 LEVEL 3, LAUNDERABLE AND REUSABLE BED BARRIER

Research documents a 35-50% reduction of hospital onset C.diff

The Soteria® Bed Barrier is the only FDA 510-K launderable and reusable healthcare bed barrier that provides a protective physical barrier to protect the bed and mattress from patient soiling, helping to reduce contamination during use. Designed for acute and long-term care beds and stretchers, it fits securely over the mattress and bed deck and attaches to the bed frame without disrupting bed and mattress performance during patient care.

### CORE COMPETENCIES

Trinity Guardian:

- Provides an engineered solution for bed/mattress re-processing.
- Provides laundry formulas and consulting on proper cleaning procedures.
- Designs barriers internally to tailor fit the mattress and bed frame combination.
- Manufactures all barriers in the USA

### DIFFERENTIATORS

- Only **510-K cleared level three hospital** bed barrier on market
- Soteria is laundered by hospital laundry providers
- Light table inspected at laundry between each patient
- Laundry process **removes 99.9999%** vegetative, mycobacteria & spores exceeding AAMITIR 12: 2020 High Level Disinfection Standards
- Peer reviewed research shows use of Soteria reduces hospital onset C.diff by 35-50%
- Saves reprocessing labor & protects mattress & bed deck
- Provides a hard dollar cost lifetime savings for an average 200 bed hospital of \$400k
- Product **warranted for 150 launderings**
